COMPANY SALES REPORT

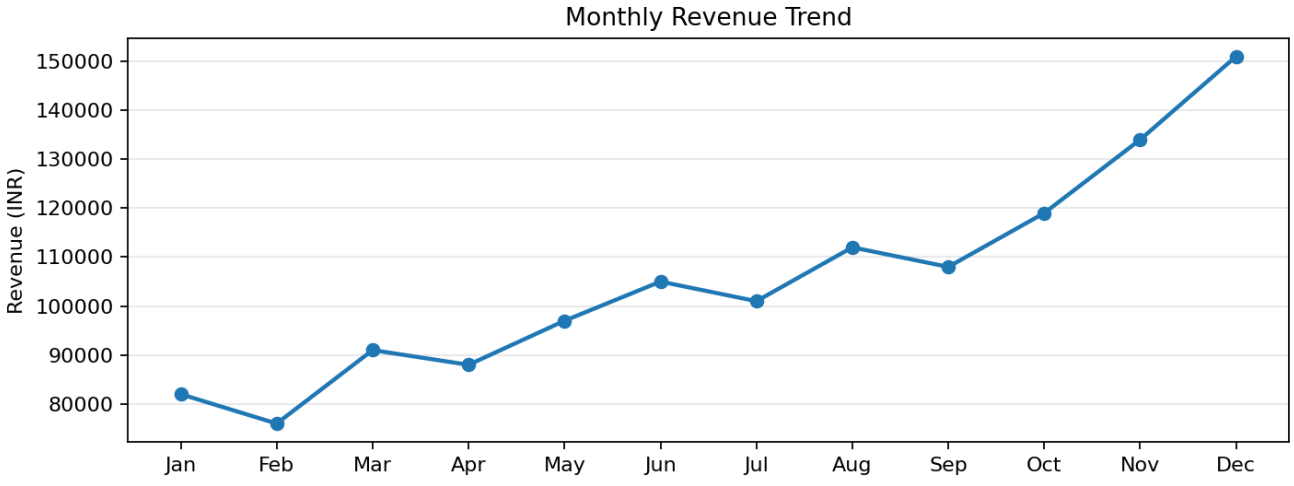

Fictional company • Annual overview • January–December 2025

This sample report uses entirely synthetic sales figures for a fictional company, Northstar Office & Tech Ltd. It is designed for practice with Excel, Power BI, SQL, data analysis, and dashboard storytelling.

Total Revenue	Gross Profit	Total Orders	Gross Margin
■1,264,000	■502,000	6,195	39.7%

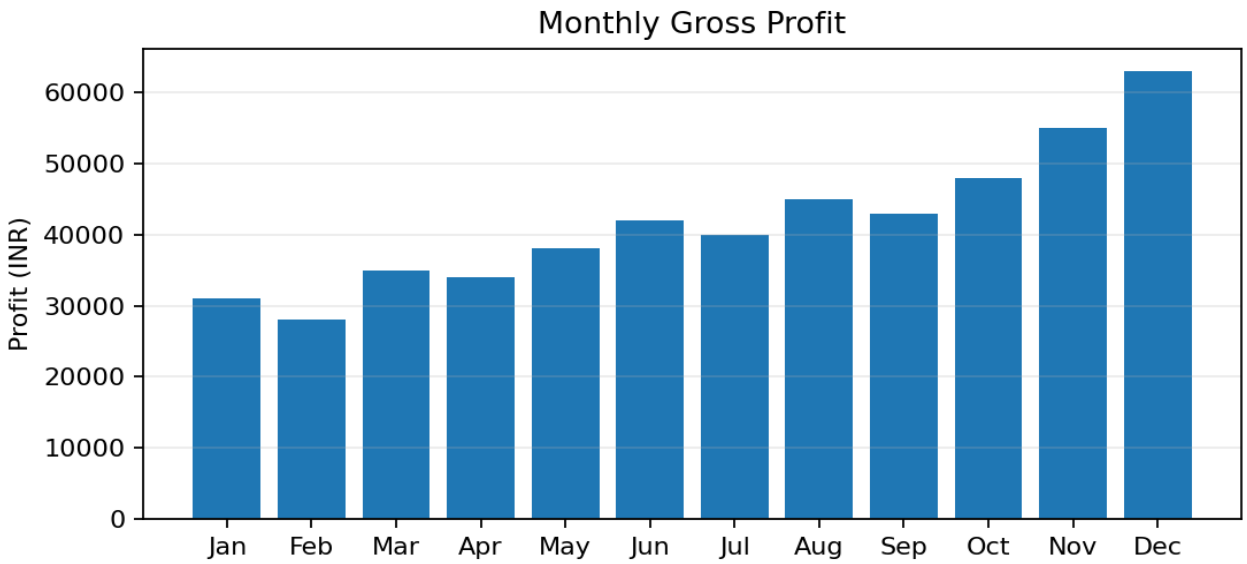

Executive Summary

Annual revenue totals ■**1,264,000** across **6,195 orders**. Gross profit is ■**502,000**, representing a gross margin of **39.7%**. Revenue peaks in December at ■151,000; January is the lowest month at ■76,000. These patterns are intentionally illustrative and should not be treated as real business results.

1. Monthly Performance

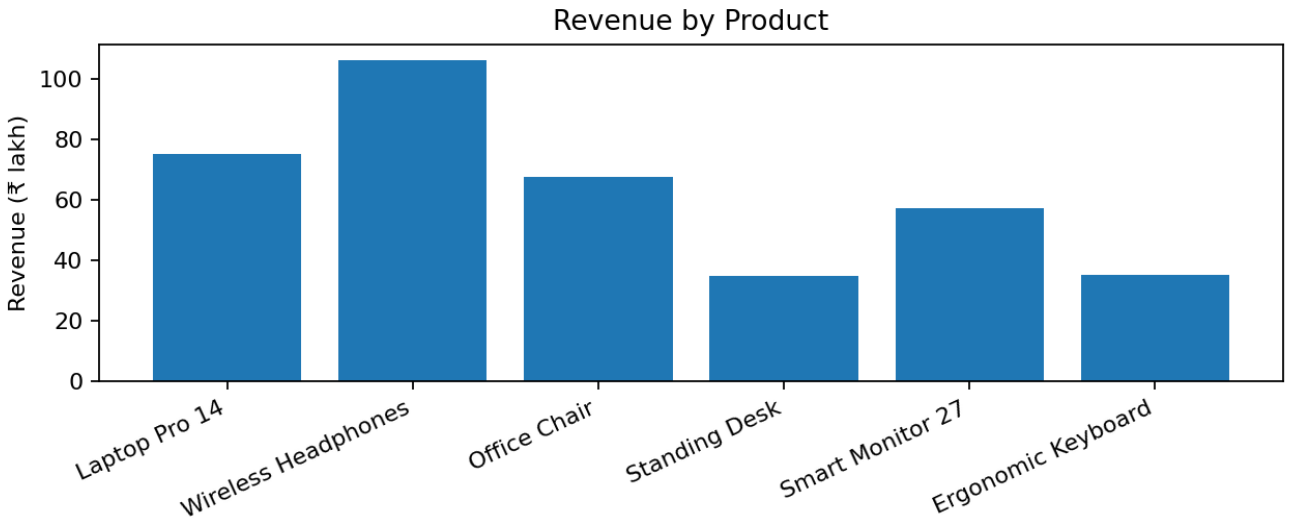

Revenue, cost, and gross profit by month. Gross profit is calculated as revenue minus cost in this sample.

Month	Revenue	Cost	Gross Profit	Orders	Margin
Jan	■82,000	■51,000	■31,000	410	37.8%
Feb	■76,000	■48,000	■28,000	385	36.8%
Mar	■91,000	■56,000	■35,000	450	38.5%
Apr	■88,000	■54,000	■34,000	438	38.6%
May	■97,000	■59,000	■38,000	480	39.2%
Jun	■105,000	■63,000	■42,000	515	40.0%
Jul	■101,000	■61,000	■40,000	502	39.6%
Aug	■112,000	■67,000	■45,000	548	40.2%
Sep	■108,000	■65,000	■43,000	530	39.8%
Oct	■119,000	■71,000	■48,000	585	40.3%
Nov	■134,000	■79,000	■55,000	642	41.0%
Dec	■151,000	■88,000	■63,000	710	41.7%
TOTAL	**■1,264,000**	**■762,000**	**■502,000**	**6,195**	**39.7%**

2. Product Performance

Sample revenue by product; figures are synthetic and represent an illustrative product mix.

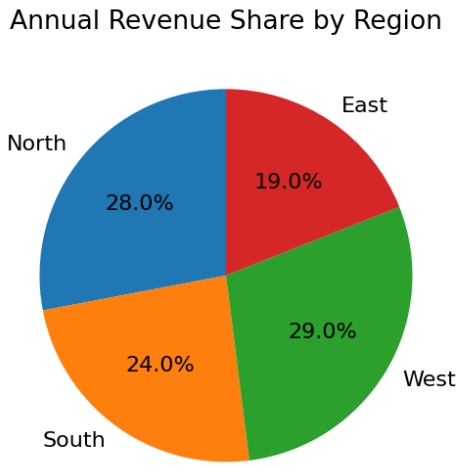

Product	Category	Units Sold	Revenue
Laptop Pro 14	Electronics	35	■7,525,000
Wireless Headphones	Electronics	250	■10,625,000
Office Chair	Furniture	180	■6,750,000
Standing Desk	Furniture	120	■3,480,000
Smart Monitor 27	Electronics	310	■5,735,000
Ergonomic Keyboard	Accessories	430	■3,526,000
TOTAL	**—**	**1,325**	**■37,641,000**

Observation: Wireless Headphones contribute the largest revenue in this sample. Laptop Pro 14 has a higher selling price but lower unit volume.

3. Regional and Channel Mix

Regional sales and sales channel shares are illustrative. Regional values below sum to the annual revenue total.

Region	Revenue	Share
North	■353,920	28.0%
South	■303,360	24.0%
West	■366,560	29.0%
East	■240,160	19.0%

Sales by Channel

Channel	Share of Sales
Online	42%
Retail	33%
B2B	25%

4. Practice Questions for Analysis

1. Which month has the highest revenue and which has the lowest?

2. Calculate month-over-month revenue growth. Which month shows the biggest increase?

3. Which product has the highest revenue? Which has the highest unit sales?

4. Compare monthly gross margin and identify the strongest month.

5. Create a dashboard with KPI cards for revenue, profit, orders, and margin.

6. Use SQL or pandas to group sales by month, product, region, and channel.

Definitions

Revenue: sales value before costs. **Cost:** illustrative direct cost associated with sales. **Gross profit:** revenue minus cost. **Gross margin:** gross profit divided by revenue. **Average order value:** total revenue divided by total orders. All amounts are in Indian rupees (INR).

Data note: This fictional sample is suitable for practice only. It is not based on any real company or actual sales.
